Packing Description:
DO41 parts are shipped in tape. The carrier tape is made from a dissipative (carbon filled) polycarbonate resin. The cover tape is a multilayer film (Heat Activated Adhesive in nature) primarily composed of polyester film, adhesive layer, sealant, and anti-static sprayed agent. These reeled parts in standard option are shipped with 5K units per 13" or 330cm diameter reel. The reels is made of paper. This and some other options are further described in the Packing Information table.

These full reels are individually barcode labeled and placed inside a standard intermediate box made of recyclable corrugated brown paper. One box contains five reels maximum. And these boxes are placed inside a barcode labeled shipping box which comes in different sizes depending on the number of parts shipped.
